

**2018 - 2019  
AQUATIC WORKSHOPS  
CONTINUING EDUCATION UNIT**

***14 classes located throughout Iowa!***

Healthy swimming fast facts courtesy of Centers for Disease Control (CDC):

- There are 10.4 million residential and 309,000 public swimming pools in the United States.
- Did you know that people in the United States swim more than 300 million times in pools and spas each year?
- 10.7% of routine pool inspections identified pool disinfectant level violations.
- Cryptosporidium (Crypto) is extremely chlorine-tolerant parasite that can survive in a properly chlorinated pool for 3 ½ to 10 ½ days.
- Injuries linked to pool chemicals account for 3,000-5,000 emergency room visits each year with almost 50% of patients are under age 18.
- More than 60% of fatal drownings of 0 to 4 years old occur in swimming pools.

Staying on the cusp of advances in our field is vital to the operation of aquatic facilities. Recognizing this fact, IPRA is dedicated to providing fourteen half-day workshops which address both updated information in addition to your individual questions and concerns. This workshop will break each of these issues down and find methods for avoiding, then resolving, issues and concerns at your facility. This year's workshops focus on:

- **Updates to CDC Model Aquatic Health Code** – keeping you in the loop with third edition 122 changes.
- **Prepping pools for the next season** – putting your outdoor pool to bed in the fall is critical to quick spring starts.
- **Iowa State Code** – reminders of what you need to do as an Iowa pool and spa operator
- **Is Your Pool or Spa Making People Sick**– keeping your facility safe for users
- **Summer 2018 hot button issues** – what are inspectors finding and how to facility problem resolve

\* Disclaimer – IPRA reserves the right to adjust focus topics based upon timely field changes.

Workshops are based on meeting the needs of the participants. The format is extremely flexible and focuses on “real problems in the real world”. Participants are encouraged to come with questions for our knowledgeable staff to answer.

Each workshop will be lead by experts in the Iowa swimming pool and spa industry. Our teaching staff includes David Peters and Charlie Rochford of Lonza Water Treatment. Both are well versed in state-of-the-art technology, extensive experience in construction of new and refurbished facilities as well as hands-on experience in all facets of pool operation. Their broad background and ability to relate to class members' questions combine for an outstanding educational experience.

In addition to being an excellent source of information, *this workshop has been approved by the Iowa Department of Public Health for 2.5 hours of continuing education* in accordance with part 641-12.11(2) of the Iowa Health Code which requires all Certified Pool Operators to receive an average of at least two hours of CEU's per year in a five year period concurrent with the individual's CPO certification. This CEU Workshop does not update your Certified Pool Operator license as issued by the National Swimming Pool and Spa Foundation.

**CLASS START TIME:** The workshop is from 1:00 p.m. to 4:00 p.m. *Exception: Thursday, September 12, 2018 class in Fort Dodge and Wednesday, March 28, 2019 in Des Moines which are both held 8:30 – 11:30 AM.* The fee is \$150 for Non-IPRA members and \$120 for IPRA members. For questions, call (515) 291-4917 or email [steve@iapra.org](mailto:steve@iapra.org)

For a complete listing of when an aquatic workshop will be held in your area as well as how to register for the workshop, please flip to the other side.

**REGISTRATION FORM ON REVERSE SIDE**
